## DIMES MARCH TUESDAY

Next Tuesday, Jan. 31, is the date of the Mothers' March—a traditional community effort which mothers, and fathers, march against the crippling disease, infantile paralysis.

Scheduled from 7 to 9 p.m., the Mothers' March will be an all-out effort to give every Albany resident an opportunity to assist the thousands of men, women and children in braces and iron lungs who will need March of Dimes help for years to come.

Mrs. A. A. Radder and Mrs. J. H. Hanson, co-chairmen of the Albany Mothers' March, said the 1956 Mothers' March will be dedicated to the community's polio babies—families, who today and in the future, will need help in rebuilding lives shattered by the devastating disease.

The local chairman said that during the dramatic two-hour "march," mothers armed with official identifying kits, will call at every home in their assigned neighborhoods "so that all can share in the polio fight."

They said, as in previous years, local residents will be asked to welcome the volunteer marching mothers by lighting porchlights during the two-hour period.

Area chairmen, assisting Mrs. Radder and Mrs. Hanson with the leadership of the Mothers' March are Mrs. Robert T. Dottery, Jr., Mrs. John School; Mrs. Ted McCall, Mrs. George Roberts, Macgregor, and Mrs. John Loneragan, etc.

## Fun, Fiesta and Flowers

By MAXINE VIERECK

The world's number one participant sport—there are few sidelines—is bowling, and Albany Bowl's 26 alleys are humming morning, noon and night with the players ranging from housewives to business men, and from junior high schoolers to players in their sixties and seventies.

Bowling instructor Sky Overstreet points with pride to the fact that Albany Bowl is the training field for housewives young and older, many of them, women who never went in for athletics in their lives. "It's a competitive outlet for anyone who can hold a ball," says Sky. Besides being mentally and physically beneficial, bowling's fun, and filled with sociability. "A woman bowler is a pleasanter wife and mother," according to psychiatrists.

Available to Scout leaders and civic groups is Albany Bowl's film titled, "America Bowls" giving bowling techniques as demonstrated by the nation's experts. This film may be borrowed or shown in the league room.

Albany High School girls, who won the semi-annual "championships" at Albany Bowl with a total series of 1428, were Merrellyn Douval, Joan Fello, Beverly Kline, Rita Kunnion and Linda McCulloch. Individual trophies were awarded by Albany Bowl. El Cerrito High finished second with Portola Junior High in third place. Classes at Albany Bowl are a regular part of the athletic programs at El Cerrito and Albany High.

**Palm Garden** at 1350 Solano Ave. is an exotic setting where you may order your dinner in Chinese, your favorite cocktail in French or Spanish, plus a romantic song by merely humming or whistling a few bars of the tune if you've forgotten the title.

For instance, "war view opp" is Palm Garden Duck and a delicacy to please a gourmet in either language. The chef de cuisine is Hart Chan whose *Ding How Kitchen* menu at Palm Garden may remind you of delightful Chinese dinners you enjoyed at the old Planter's Dock at the foot of Broadway in Oakland where he formerly chefed. The dining room is open every night except Monday.

At the new Baldwin organ in the piano - organ bar of the cocktail lounge playing nightly is the "Silver Fox Boly Knox" who will be remembered by many for his 20 years with Fox Theaters and as organist for Hermie King's Orchestra. Billy's repertoire ranges from Bach to Boogie and he enjoys having the customers join in spontaneous singing.

**Connie's Fashions** at 1595 Solano Ave. is holding a semi-annual clearance sale with nothing but bargains in skirts and dresses for the three - year - old up through the subteens. It's worth putting on your winter coat or rain slicker to make a trip to Connie's to buy attractive additions for your youngster's wardrobe. Connie limits her sales to just two a year so she has marked down the price tags to an irresistible low that will fit your over-taxed budget.

Hominess is the keynote for the Red Barn on Solano at Esenada where Restaurateur Wayne Leach has carefully built up a friendly family trade. Homemade pies and bran muffins from the kitchen's own bakeshop put the topping on your excellent New York cut steak, fish or chicken entrée. Special lunches daily except Sunday run from 85c to \$1.75.

The Red Barn is observing its fifth anniversary year with the upstairs soon to be converted into banquet rooms for such clubs as Kiwanis, Lions and Chamber of Commerce who hold luncheon and dinner meetings there. Perhaps not so well known is the catering service supplied by Red Barn for weddings and parties. Some 250 graduating seniors at Berkeley High will be served by Red Barn's catering service this week.

Leach began his restaurant career years ago at the Lorenzo Spaghetti House near the corner of San Pablo and Solano. He operated the Oak Tree at the top of Solano for five years before acquiring the two-story house at 1742 Solano, painting it red and giving it the appropriate name.

Who's your favorite Valentine? Kay Fritz at Bo-Kay Gift Shop, is a talented buyer when it comes to greeting cards and costume jewelry.

## BUILDING CODE GETS COUNCIL APPROVAL

Following a scheduled public hearing Monday night the Albany City Council gave its approval to a new uniform building code to replace the code which has been in effect since 1943. There were no protests, written or verbal, and the council vote was unanimous, 5 to 0.

The new code as explained briefly by Councilman Jerome Blank, follows closely the terms of the national code, and is largely to bring up to date the technical requirements in keeping with the many advances in the development of new methods and new materials.

The council also passed Resolution No. 2052 declaring the policy of the city as being opposed to any standards being fixed by the San Francisco Bay Area Water Pollution Board which would permit the discharge of any polluted or contaminated waste on the shore line or into waters covering the shore line of San Francisco Bay. The vote was 4 to 0. Mrs. Zahn not voting on the plea that she had studied the legal aspects of the case and that the council was taking action for which it had no legal right.

The council received a report from the city engineer's office regarding the possibility of violations of the zoning ordinance in residential areas. The report gave a list of 83 addresses, some of which have licenses, some industry permits, and some without licenses. It was revealed that a cursory study of the list had brought out the fact that the original ordinance was weak in definition, and that it should be amended. After some discussion, on motion of Councilman Combs, the matter was postponed one week with the promise that at the next meeting an amendment would be presented for discussion which it was thought would correct the weakness in the original ordinance.

Another matter which came up for discussion was a complaint from E. R. deOng, 926 Stannage Ave., regarding the method used by the Oakland Scavenger Company in submitting its bills. The complaint alleged that the company was billing for its services in advance, instead of on a month-by-month basis as formerly. It was brought out that the scavenger company franchise with the city does not give permission for demanding such advance payment for the service three months, six months or even a year in advance, and that the customers are not compelled to do so. Mrs. Zahn commented that she had billed her on an advance basis but that she was continuing to pay on a monthly basis. The other councilmen agreed that no one could be compelled to make such payments in advance.

Try to practice what you already know; and in so doing, you will in good time, discover the hidden things which you now inquire about.—Rembrandt.

**AT MANY TIMES** . . .  
Friday, January 27, 1956  
There are two kinds of men who never amount to much—those who cannot do what they are told and those who can do nothing else.

### Meet the Moraghans who set up housekeeping in San Francisco in 1936

**20 YEARS AGO**—when Charles and Jane Moraghan were married, they had just seven appliances in their first home: refrigerator, coffee maker, toaster, waffle iron, radio, mixer, electric clock.

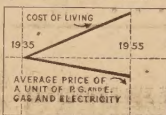

**TODAY**—the Moraghans and their pretty daughters, Louise and Amy, have 29 appliances in their spacious home: range, refrigerator, freezer, washer and dryer, dishwasher, garbage disposer, rotisserie, waffle iron, toaster, coffee maker, blender, mixer, two irons, hair drier, television, four radios, two phonographs, sewing machine, vacuum cleaner, two electric clocks, furnace and water heater.

### Today they buy \$23 worth of gas and electricity for \$16

...for the average unit cost is about 1/3 less than it was in 1936

Here in California, the average family uses three times as much gas and electricity today as twenty years ago. And chances are you're using more gas and electricity as you add more and more modern appliances and better lighting to your home. Naturally, when you use three times as much, your bill is bound to be higher. But it's far lower than it would have been twenty years ago! That's because

P. G. and E. now charges about 1/3 less per unit of gas and electricity, on the average, than it did in 1936. Take the Moraghans: a month or so ago, their bill came to \$16. Back in '36, the same amount of gas and electricity would have cost them \$22.75! And your bills probably show similar savings. Can you think of anything else that costs you less today than 20 years ago? No wonder we say...

Gas and Electricity are cheap in California!

### HOW TO INCREASE CALIFORNIA'S RECOVERABLE OIL RESERVES

We believe every citizen and taxpayer has a personal stake in the Oil and Gas Conservation Initiative

A huge increase in California's recoverable oil reserves will result from an oil conservation measure for which title has been approved by the Attorney General.

#### Prohibits Waste of a Vital California Resource

This initiative differs sharply from other oil measures brought before the public in the past. It does not permit market demand curtailment and rationing. It is designed solely to give the oil industry legal tools, to match its know-how, to carry out production practices necessary to enable the industry to be good stewards of California's oil reserves.

#### Insures continued high employment

It will enable a majority of the operators in a field to bring about practices which will prolong immeasurably the lives of fields in which they are employed, insure continuing employment to those in the industry far beyond present expectations, and provide a strong bulwark for the cornerstone represented by oil production that underlies California's whole economy.

#### Oil means three billion dollars in pocketbooks of Californians

The public welfare involved in good oil conservation is indicated by the fact that in 1954 the various petroleum products derived from California oil production added about three billion dollars of new wealth to the State.

For two years Richfield has conducted a public information program about oil.

As a public service and in our own self-interest, we have been telling the people of California how tremendous quantities of recoverable oil are being wasted by being left unrecovered in the ground.

Richfield engineers have told meetings of women's groups, community leaders and conservation groups how the physical waste of oil could be prevented, and the size of the public's stake in good oil conservation practices.

These meetings have always ended with strong expressions of support for action that would protect the public interest in this vital natural resource.

#### Public has demanded this constructive action

It is because of the very favorable public response to the information program that we decided to sponsor an initiative measure for an oil conservation law and bring the matter directly before the people.

Not enough new pools are being discovered in California to keep oil production equal to ever-increasing demand. We are now sending dollars abroad for the purchase of oil—dollars that would otherwise be circulated among our own people in payment for goods and services of all kinds.

#### Initiative provides only sure way to keep California's oil prosperity

There is one sure way to increase California's reserves of recoverable oil and thus assure California of continued prosperity. That way is unit operation in as many oil pools as possible. California producers need the law to facilitate unitization.

My associate, R. W. Ragland, and I are the sole sponsors of the initiative petition. But discussions which we have had recently with other oil people indicate that a majority of the industry will support the proposal.

We expect the measure to qualify for the general election ballot, November 6, 1956.

Chas. S. Jones  
PRESIDENT...RICHFIELD OIL CORPORATION

### At St. Ambrose Catholic Group Holds Ceremony

F. Carroll and L. M. Schuller, monitors, and Mae Arns, J. H. Potts and Chester Kimble, trustees.

### Church Women Of Arlington to Hear Mrs. Geo. Dreher

"A Church Woman's Big Decision" will be the topic of Mrs. Geo. K. Dreher when she talks to the Women's Association of the Arlington Community Church on Friday, Jan. 27.

Mrs. Dreher was a Danforth graduate fellow at Oregon State University. The fellowship consisted of study and leadership in campus religious work. She studied for two years at Union Theological Seminary in New York, and has been active in church women's work as well as being president of the Utah Federation of Congregational Women.

Mrs. H. R. Jasper will sing a solo, accompanied by Mrs. A. J. Muirhead at the organ.

The meeting will begin with a devotional service in the Chapel of the Redeemer at 12 noon, followed by luncheon in the parlor with Miss Gladys Nevenzel in charge, assisted by the Mesdames Millard Bostock, Desmond Johnson, Richard Johnson and LeRoy Merritt. Mrs. Arthur B. McIntyre, president, extends a cordial invitation to women of the community. There will be child care.

**WHAT'S DOING**

**Children go to school by telephone**

For ill or handicapped children facing long confinement at home, there's a new interest in life these days. Thanks to home telephone service, they can now "attend" classes. A speaker-microphone is put in the classroom and in the home. They're connected by a private telephone line. The student at home hears everything his teacher and class say, and they hear him. As one youngster says: "Before, my lessons at home and that was that. Now something happens every day." The men and women of Pacific Telephone make your telephone more useful every day.

**Beauty and convenience for your home with color telephones**

Wouldn't you like to have extension telephones in beautiful colors in your home? Well, it's a simple matter to order yours. Just call your telephone business office. You have a choice of eight full colors—red, ivory, brown, green, blue, beige, yellow, or gray—and two-tone combinations. With color telephones in your living room, bedroom, kitchen, and any other room you use a lot, you'll enjoy new ease of living. Cost: single installation charge, you pay only \$1.00 a month for extension. So why not call us today.

**An Invitation Women's Clubs & P.T.A. Groups**

We would like to take you behind the scenes in one of our East Bay telephone buildings where you can see first hand how your calls are completed. We are proud of the conditions under which our people work—immaculate, well illuminated and ventilated working quarters—spacious comfortable lounges. Clean and well stocked canteen—cafeteria will be found in all buildings. Large number of employees warrant most entertaining and instructive visit. Call telephone office for arrangements.
